

IPB 2 Link Checkers

Version 1.1.1 Final

June 28, 2005 – Written By: cooldude7273

What is a Link Checker?

Link checkers are run by people wanting to keep their pages and bookmarks up to date. Being visited by a link checker is good news as it means that someone has linked to you, and cares that you're still alive. Link monitors regularly check your pages for changes, usually because someone has selected your page as "one to watch".

ChangeLog v1.1.1 Link Checkers:

- 1 New bots.
